Serving You Since 1970

We manufacture 21 different lures, nine different baits, 12 dog training scents. We also offer 13 animal glands and a large selection of Top Quality Uncut Essential Oils and lure ingredients. Also we have ten of the finest different animal urines available that are collected by us and others. Ours have been tested in all kinds of conditions and terrain by thousands of trappers. Our customers have kept ordering our baits and lures for the last 50 years now. Currently we sell to every state in America and eleven foreign countries. We manufacture eighteen Quick Kill Snare and I have patented the self-supporting Figure 7 snare system on July 18, 1984. We also build 29 different sizes and styles of basswood stretchers and four types of hardwood beams. We get all of our lumber right from the mill, haul it home, stack it, and dry it, plane it and finish thousands of stretchers every year. We cut all of our own cable and assemble 18 different types of snares. We offer a large selection of traps, tools, gloves, videos, snare cables, locks, many different types of knives, fleshing tools and many other trapping tools and hardware. We really enjoy our work in serving you and certainly appreciate your patronage. Have a great season and enjoy every new day.

All Orders Are Shipped The Same Day Received

“COWBOY” Canine Bait — The more experienced coyote men know the value of a milder food bait. ADC men have found **“COWBOY”** an especially good bait when used with traps and a top notched Gun Bait for use in control work. Put up in an easy to use heavy grease base and made entirely with natural ingredients. **“COWBOY”** sparks a coyotes curiosity. Contains a formula that will attract coyotes in ANY season and under ANY conditions. Pro-Coyote men know the value of a milder bait that doesn't burn your nose. **“COWBOY”** will clean up the fur. Works alone or in combination with lures. Use 1 teaspoon at a set and 2-3 teaspoons in late season. **1/2 Pint Jar — \$14.00**

TOP SELLER!

50-50 This is a meat based bait, made with two different meats. You can pick up a hint of castor in it. We use a smooth high quality Himalayan musk with a little Canton blended in. When you crack the lid on a jar of this bait you can almost feel a mushroom cloud of meat and musk odors. We give it just enough skunk to give it some range. I call this a buried mouth watering food odor. Coyote, Fox, Cat, Coon, and Badger really go for this bait. **1/2 Pint Jar — \$14.00**

TOP SELLER!

PRAIRIE FIRE A favorite of many trappers, this canine bait made from natural ingredients creates a rough-mild mouth watering odor which causes all canines to really investigate at a flat set or readily try to dig it from a dirt hole set right to the bottom. They will keep digging and chewing and working **“Prairie Fire”** 3 or 4 months after you've gone. This rough but mild bait gets the same result year round in early fall to late season. It has proven itself to do unbelievably well on coyote getters as well as with traps. Fish and wildlife trappers tell us **“it just never quits!”** Start the **“Prairie Fire”** on your line and smoke a pile of coyotes! **1/2 Pint — \$14.00**

CANINE CANDY Is a curiosity type food lure. It's made from 100% natural ingredients and it has its own properties to handle both preservation and freezing. Use this lure by itself at dirt hole or backing type sets. If you shove a teaspoon full under a rock with the trap hidden out front, rain won't affect it. This is not an overpowering lure. It has enough **“Bango”** in it to give some reach. Use a teaspoon per set. It causes a digging response to all predators. It lasts a long time and it's not uncommon to see tracks and digging after you have pulled your traps even into late spring. It works all season long.

..... **4 oz. jars — \$24.00: Pints — \$65.00**

Top: We make lures that catch all predators.

Right: Marty Adam had a good day, Georgia grey fox.

TOP SELLER!

Sweet Skunk — All canines will readily investigate a buried skunk or carcass, dig it up, drag it around, and if hungry enough, eat it. "Sweet Skunk" is not a harsh odor as pure skunk essence is. It can be used in a wide variety of applications and in numerous types of sets. It is sure an attraction for all canines. It may also be used by itself at a dirt hole or on flat sets or you can make a Killer Trash Pile Set for Bobcat using bits of ground duff, bleached bone and a few odd feathers with a teaspoon of "Sweet Skunk" and a touch of "Cat Puddy". It's also great for compounding your own lures and will improve any lure or bait.**Sold in 4 oz. jars only \$24.00**

K-7 A GREAT NEW LURE

K-7 is one of the first choice lures for all seasons and predators. K-7 is a sultry blended paste type lure with just a hint of tonquin on the top end. It won't dry or freeze out, or fade out, making it a proven lure for all seasons, and especially fox, coyote, cats and wolf**1 oz. \$7.00; 4 oz. \$24.00**

"One heck of a good coyote lure."

Finely caught him, late December on K-7. Good sized Coyote.

"GRAY GHOST" — A concentrated thick "pasty" lure, built to weather very well and produce year round. Very attractive to coyote, fox, mink and coon. Terrific calling power. Has produced amazing catches for trappers for the last 44 years.**1 oz. ONLY \$7.00; 4 oz. Jar \$24.00**

"YOTE DUSTER" COYOTE #1 — Formulated just right to accomplish the fresh, natural coyote odor. These blended glands really "Yote" a set. "Yote Duster" has just the right amount of "Old" dog urine to make it doubly irresistible. Coyotes can never NOT be interested in other coyotes; it is naturally fascinating. You'll get urination at flat sets and scent posts, but will enhance any set.**1 oz. ONLY \$7.00; 4 oz. Jar \$24.00**

"DAKOTA GRAND" COYOTE #2 — This is a great blend of native musks. Heavy coyote smells on top with the unusual enticing odor that helps keep a coyote working your set. It works year round and will last for days. Deadly in the hands of a seasoned trapper.**1 oz. ONLY \$7.00; 4 oz. Jar \$24.00**

TOP SELLERS!

FAT CAT — The demand for "Fat Cat" from serious cat trappers has made it one of the hottest cat lures going. This lure has a very attractive odor to it that arouses the cats natural curiosity. It sets off the lick/eat instinct, overcoming the finicky nature of those high dollar cats. Its got just enough skunk in it to give it some reach. It scores big on coyote, cat, coon, and red fox. "Fat Cat" lure is extremely efficient year round and is just the ticket for use in cage traps. Just smear some on a piece of hide, or duck wing, tie it up behind the trigger system. RARELY is there an attractant that is so attractive to all canines, and still so very effective. Works all year round but best used after first frost.**4 oz. \$24.00**

MUSTANG SALLY — "Mustang Sally" won't spook those paranoid coyotes who have gotten used to the common foul smelling commercial baits or the "perfume" types. Unlike many of today's rank nasty baits which cause a rolling or urination response, "Mustang Sally" grabs a coyotes' attention and triggers a natural desire to actually lick or eat the bait. Coyotes really focus on this bait and will dig a dirt hole to try to remove and eat this bait. And because coyotes want to eat this bait, it also works excellently on getter guns.**4 oz. \$24.00**

Garett Dugan

Your lures and baits are the right combination that really work. — Randy Pagenkopf, MN

"CAT PUDDY" BOBCAT #1 – This lure is thick and "Catty" smelling. Attractive to all cats. Aged to just the right degree so it will give off that "puggy cat" odor. Good at all sets and a gob smear on a hanging hide or feather in back of a cage trap works very well. **1 oz. \$7.00; 4 oz. \$24.00**

"SNOW CAT" BOBCAT #2 – It takes potent cat calling ingredients to pull a cat over to your set. And "Snow Cat" will do just that. It also contains two very high interest curiosity components that helps hold them around and work your set. You'll be happy with this one. **1 oz. \$7.00; 4 oz. \$24.00**

GRAWE's SNARE PASTE – Attracting predators to snare areas is a secret to successful high-numbers harvest. This paste, a couple of feet off the ground, will have predators milling about the area, and they'll be distracted and focused on the smell, not the snares. Great for those times when a perfect snare location can't be found - you just make a perfect location. **1 oz. \$7.00; 4 oz. \$24.00**

Well worth the Money, A Great Product!

180 Red Fox taken by Wally Murlenberg, South Dakota, at the age of 85.

"BIG RED" FOX #1 – No matter what a fox smells, sees, or feels, he will have bold confidence at the set with "Big Red" - it is a natural gland foxy smell. Nothing is more interesting to a fox than a strange fox. It is powerful by itself in scent post and flat sets, or as a confidence-builder with baited sets. "Big Red" is a heavy, pasty lure with top quality urine. A run-of-the-mill, common gland lure is interesting to fox; a great gland lure is irresistible. **1 oz. Bottle ONLY \$7.00; – 4 oz. Jar \$24.00**

"RASCAL" FOX #2 – Fox Know-How and Chemistry make this blend of calling agents a top performer on many High-Rolling fox trap lines. "Rascal" causes a fox to work a set hard, whether they are hungry or not. It is attractive to all canines, but its versatility is one of its best qualities. It is naturally irresistible to a fox any time of the year in most any type of set. This lure will provoke a fox to respond aggressively. **1 oz. ONLY \$7.00; 4 oz. Jar \$24.00**

"WINTER LOAD" – "Winter Load" really shines in the late winter, but will enhance a presentation any time. It is a long range caller that will bring canines from a distance when you place it above or near a set, or it can be used right at the set for a change-up. The oily skunk ingredient added to other long-range attractors really is an attention getter. "Winter Load" will stop a traveling canine, and force him to follow that scent trail up wind until he finds the source. Long liners won't be without it. **1 oz. ONLY \$7.00; 4 oz. Jar \$24.00**

"GREY STONE" GRAY FOX GLAND LURE – A HIGH quality gland lure that excites these little guys and brings out the boldness in them. Use with any of our canine baits or can be used alone. **1 oz. ONLY \$7.00; 4 oz. Jar \$24.00**

"FISHER GETTER" – A freeze proof, long distance lure that will work under the most demanding conditions. Contains two different musks blended with fish oil and a good shot of skunk **ONLY \$7.00 Per 1 oz. Bottle; 4 oz. Jar \$24.00**

We had a great year using "Fat Cat". We swear by it and the cats love it. We are ready for another batch.
— Jon & Chris Weeler

We accept VISA and MasterCard

BIG STINKY - This coon bait is not at all like most fragrant coon baits on the market. Its rich, loud odor leaves a real "ZANG" at any set. This coon bait has risen to be the all-time top coon bait. Its attraction to passing coon is unsurpassed. Gives fantastic results on land or water. Trappers, it takes a lot of those creek bank fox and coyote too. A number of southern trappers use it exclusively on gray fox. **1/4 Pint Jar ONLY \$9.00**

"Big Boar" Coon Bait

Made especially for the Dog Proof Coon traps. Thick, heavy, and sticky. Stays where you put it. Once a coon tastes this bait he will eat all he can get. Comes in a handy squeeze bottle for easy application to D.P. traps or can be used in water pocket sets or as a smear bait on large rocks or trees. Works in all seasons. Be sure to set 2-3 traps on coon trails or travel areas to take large number of coons

..... **1/2 Pint \$14.00**

TOP SELLER!

"SWEET PETE" COON BAIT - This bait is the secret of long-liners, and for good reason. This bait has a "Sweet" base, yet has a penetrating odor that won't wash out in any weather. This bait comes in handy quarter-pint jars. **1/4 Pint Jar ONLY \$9.00**

Coon prices got you down? A mediocre attractant will catch some coon. If you want to maximize your effort, however, use the BEST attractants and the BEST equipment.

"Big Boar"
is one of the very few commercial coon baits they will actually eat!

Herbie, a 52 lb tame coon, raised by Neil K. of Kentucky.

NEW!! Catfish Tar. 100% Catfish Oil. We use only the Yellow fatty backs that consist of a rich oily fat. It takes a lot of time to render. This heavy, thick strong fish oil is nicknamed CAT-FISH TAR. Reaches out a long ways and STAYS where you put it. This is NOT Fish Juice or a heavy Gruel, rotted Meat, bone material. This is 100% CATFISH OIL. **4 oz. \$25.00**

Poke a stick in and use where you want.

The Very Best URINES

We feed all natural feed: rabbits, prairie dogs, squirrels, beaver, bobcat, cattle, horse, some turkey, and any legal road kill. We gut all carcasses, drain the blood, and flush out the cavity. We let the blood and water drain from the meat and grind freeze the meat in solid blocks. We have a multi-filter system in the catch trough to keep food particles and manure out of the urine. We sell all fresh and preserved urine. For those that ask for it, we have set aside "AGED" urine. Daily tray cleaning is a must. I want the best possible urine I can collect and that's all I use and sell. *Use the best and get the best results.*

Doug Kessler, Idaho

**Your stretchers and lures are the best.
2016-2017 season.
DeWayne Holder**

“Musky” 1 Mink #1 – Nothing tops off a set like a good mink gland lure. While this lure is at-tractive to a mink, it is especially deadly on long-ranging, bank running, big old male mink. A large buck mink is always on the lookout for an intruder on his rounds and is sure to stop and investi-gate a set if he figures another mink has moved in on his route. This is especially valu-able at dry sets. **1 oz. ONLY \$7.00; 4 oz. \$24.00 “Terrific Stuff”**

BAM! BAM! Liquid Mink Bait – Fellows, no need to make excuses for your low mink catch. BAM! BAM! Definitely will help increase your fur check. Mink will swim small streams to get at the fresh natural and long lasting odor. BAM! BAM! will hold that bold curiosity that mink have and make him work your sets longer. YOU CANNOT hide BAM! BAM! From a mink; he will find it. BAM! BAM! can be used alone or in conjunction with my other mink lures and you have a deadly mink taking combi-nation. **Only \$9.00 per 4 oz. bottle; Pints \$30.00**

“Mink Pack” Mink #2 – This is our top selling mink lure as it has an unequalled value in pocket sets and open water sets. It contains a curiosity scent that is unbelievably attractive to mink. It is a heavy, pasty lure that is carefully blended with aromatic musk and won’t wash away. Compare it with any lure on the market for stopping power. **1 oz. ONLY \$7.00; 4 oz. \$24.00**

“RIVER GYPSY” – Otter are really attracted to this strange and different odor. It works on an otter’s natural curiosity and also gives that otter territorial invasion effect. The idea with using this lure is to make an otter “Look” for it by using it in a “Peek-a-boo” hole about 18” above the water line or using it in an oversized “Pocket Set”. It can also be used at crossovers and trails. “River Gypsy” has a “Loud” rich odor that stays for days and won’t wash out.

..... **Sold only in 4 oz. Jars. ONLY \$24.00 each**

**Mink on a barn.
Tim Sawatzky, Minnesota**

“RATTY RAT” MUSKRAT LURE – Trappers who have tried the common fruit or wintergreen odors have decided rat lure isn’t critical. This lure, however, will change your mind about that, because it triggers territorial and other responses, and will add pelts to your stretchers. “RATTY RAT” will also help catch the rats before they foul your beaver sets. Designed for the trapper for whom “pretty good” is just not good enough. **1 oz. ONLY \$7.00; 4 oz. \$24.00**

“CHAIN SAW” BEAVER #1 – Only the finest dark, aged castor are used to build this lure. Then three additional essential ingredients are added to make a beaver lure that will definitely cause them to blow and hiss. Will do more than castor alone. This territorial violator will cause them to get angry and throw caution to the wind. Great for castor mound sets, but will draw them anywhere you choose; just keep a trap between the lure and the beaver! “Chain Saw” is a heavy paste; will not wash off or freeze out. A friend of mine arrowed a deer using 1/2 jar of “Chain Saw”; now his friends are doing the same! **1 oz. ONLY \$7.00; 4 oz. \$24.00**

“RIVER HORSE” BEAVER #2 – My personal favorite. Universally interesting to beaver but is especially good on those wisd-up, trap-shy blankets. “River Horse” has ingredients not found in most available beaver lures, and is also attractive to mink, coon, and coyote. On the fur line, or damage control, you’ll improve your flat tail harvest. **1 oz. ONLY \$7.00; 4 oz. \$24.00**

Bass Wood Stretchers

"Best Stretchers Made"

We use only a Select and Better Grade of 100% Basswood. We do not Mix in any Poplar or Cottonwood as some of our Competitors do.

**Smoother Finish • Sanded Smooth Round Edges • Nicer Shaped Stretchers
Get More Uniform Stretch**

Everyone tells us that we have the best stretchers made. There is no reason why you shouldn't have the VERY BEST!

- #1 Adjustable Coyote-Cat**, with tail board. 70" long with 12" maximum width at base. Made of sturdy 3/4 stock with heavy duty hinge plate in nose and head area. Sturdy built, large air window, 4 different adjustments. Versatile stretcher. **\$23.95 Each, 3 for \$68.00**
- #2 Large Otter - Small Cat**, 63" long, 8" base. **\$16.00 Each, 3 for \$46.00**
- #3 Medium Otter**, 63" long, 7" base. **\$15.00 Each, 3 for \$44.00**
Numbers 1, 2 and 3 and 26 shipped as over-sized. Please contact us regarding extra shipping cost on these four larger sized stretchers.
The streamline design of these otter boards allows you to get a much more appealing pelt.
- #4 "Dakota Jumbo" Coon Board**, 54" long, 9" base. **\$14.00 Each, 3 for \$40.00**
- #5 Large Coon Board**, 48" long, 7 3/4" base. **\$10.00 Each, 3 for \$29.00, 6 for \$58.00**
- A real need for these size boards in western and northern states.
- #6 Medium Coon**, 48" long, 6 3/4" base. **\$9.00 Each, 3 for \$26.00, 6 for \$51.00**
- Very popular size board throughout the fur trade. For smaller yearling and kit coon we suggest you try our smaller fox boards.
- #7 Adjustable Fox**, 54" long, 10" maximum base. **Very Durable!** **\$16.95 Each, 3 for \$49.00**
- Best for allowing fur to dry quicker. This adjustable stretcher can be used on most coons also.
- #8 Solid Red Fox Board**, 48" x 6 1/2". **\$9.00 Each, 3 for \$26.00, 6 for \$52.00**
- These are sized for most Red Fox throughout the USA and Canada.
- #9 Male Fisher Board**, 54" long, 7" base. **\$11.00 Ea., 3 for \$32.00**
- #10 Female Fisher Board**, 48" long, 5 1/2" base. **\$9.00 Each**
- #9 and #10 boards are made to give you the best form to the fishers long, strong body. They do a very nice job.
- #11 Large Male Mink**, 36" x 4 1/2". **\$5.00 Each, 3 for \$14.50, 6 for \$28.00**
- #12 Standard Male Mink**, 36" long, 4" base. **\$4.50 Each, 3 for \$12.00, 6 for \$23.00**
- #13 Female Mink**, 36" long, 3 1/2" base. **\$4.25 Each, 3 for \$11.50, 6 for \$21.00**
** All mink boards are accepted, shaped and designed by fur buyers and auction companies. They give a great look to your mink hides.*
- #14 Small Weasel**, 2 1/8" x 18". **\$2.00 Each**
- #15 Large Weasel**, 2 1/2" x 18". **\$2.20 Each**
- #16 Rat Board**, 6 1/2" x 24" (our boards make great looking pelts) **\$4.50 Each, 3 for \$12.00, 6 for \$23.00**
- We've checked with many fur buyers on this rat board and the 6 1/2" x 24" seems to be the most widely accepted size.
- #17 Flething Beam**, Made of hardwood. 6" x 60" **"Excellent Quality" \$42.00 Each**
- #18 Flething Beam**, Made of hardwood. 8" x 60" **\$44.00 Each**
"Excellent Quality"
- #19 Mink Flething Beam**, 4" base; total length of 30". **\$12.95 Each**
- #20 Muskrat Flething Beam**, 5 3/4" x 24". These beams make work a lot easier. **\$12.95 Each**
(Both the Muskrat and Mink flething beams come with table mounting brackets.)
- #21 Female Martin Board**, 3 1/2" x 36". **\$4.25 Each**
- #22 Male Martin Board**, 4" x 36" **1 for \$5.00; 3 for \$14.00**
- Both martin boards are made especially with the martin's body size and length in mind.
- #23 Grey Fox Board**, 5 3/4" x 48" **\$8.75 Each; 3 for \$26.00**
- This board was made especially with the grey fox in mind. The head and smaller neck with the fuller length body really does nice job on the little greys.
- #24 Skunk Board**, At last! 6 5/8" x 36" **1 for \$9.00; 3 for \$26.50**
- Many trappers are cashing in on the high prices that skunks have been bringing again. Again, this board is made for the skunk's long, tapered neck and shoulders with the wider, lower body. This board gives the new, longer length to a skunk hide that is desired by the fur houses and auction companies.
- #25 Adjustable Fisher Board**, 5 1/2" x 54" with maximum 10" base. **Built Strong! \$16.95 Each, 3 for \$49.00**
- Large air window that enables fast drying of your pelts.
- #26 Adjustable Cat**, Exclusively designed Adjustable Cat stretcher built with sturdy 5/8" stock to prevent warpage. 5 1/2 ft. long with adjustable tail-board. 10" maximum width at the base. Made with lengthy large air drying window for faster drying. Made with Heavy Duty hinge plate in nose and head area. **\$22.95 Each, or 3 for \$67.00**
- #600 Necker Flething Knife**, 14 1/2" x 1 1/2" **\$68.95 Each**
- Aluminum Push Pins**. 5/8" extra long. **\$7.25 for 100, 300 for \$21.00**
- Wedges for Mink Boards — Martin** **\$1.50 Each**
- Wedges for Fox/Coon - Fisher Boards — Skunks** **\$2.00 Each**
- Wedges for Otter Boards** **\$3.00 Each**
- Wedges for Muskrat Boards** **\$1.25 Each**

100% Pure All Natural Glands and High Quality Lure Ingredients

Don't be "penny wise and pound foolish." Top quality glands and ingredients are critical to good attractions. Selecting products that may or may not be top quality will result in poor performance. If you want the best attractants, you simply must use the best ingredients, and ours are exactly that.

Glands

We offer 100 % Pure Glands. We don't add Liver or Kidney as they are only organs. While liver and kidney are added by many as fillers, in most cases they will ruin good glands. When you buy glands from us, I guarantee they will be the best glands offered by anyone.

Deer Tarsel Glands – Taken from White Tail - A strong, musky deer odor. High quality - real Deer smell.	4 oz. \$24.00
Otter Glands – Preserved Fresh and Natural Odor.	4 oz. \$22.00
Red Fox Glands – Foxy Odor, cut from Big Dakota Reds, put up right, Extreme High Quality.	4 oz. \$20.00; Pints \$62.00
Coyote Glands – Clean Cut, Real Coyote odor.	4 oz. \$20.00; Pints \$62.00
Grey Fox Glands – True Grey Fox. A musky grey fox odor.	4 oz. \$30.00
Mink Glands – Pure Musk Glands, Real Minky. Creates aggression in buck mink, and is very effective when used on canines. We grind, preserve, fresh mink pods that explode with a strong minky odor.	4 oz. \$20.00; 16 oz. \$62.00
Coon Glands – These are cut in late February and March so there is a Real Strong Coon Odor to them.	4 oz. \$15.00
Bobcat Glands – Real Catty Smelling. collected properly. The best you can get.	4 oz. \$20.00; Pints \$62.00
Weasel Glands – A Great Mink and Coyote ingredient. It is hard to find Quality Glands like these. Pure musky weasel pods.	1 oz. \$12.00
Lion Glands – Limited supply – real rank lion smell with plenty of body odor. Old Toms are quick to check out this strong gland scent.	4 oz. \$40.00
Muskrat Glands – Ground and preserved fresh fragrant spring glands. Muskrats will readily investigate any new rat scent. Always a fine ingredient to add to canine meat baits.	1 oz. \$9.00; 4 oz. \$25.00
Wolf Glands – Ground and preserved. Stout odor.	1 oz. \$12.00; 4 oz. \$40.00

Lure Ingredients

Our lure ingredients are **not watered down** or cheapened in any way. They are **UNCUT**. They are **FULL STRENGTH**. Our musks and oils are **PURE**. It is not uncommon in the industry to "stretch" the volume in various ways, but Grawe's products are simply as pure as can be.

Over the last 45 years I have worked with a wide variety of ingredients and have consistently sought out the Finest Quality available. Over time I have been fortunate enough to meet and deal with people who travel and deal in several foreign countries and are able to obtain for us from direct sources the Purest and Highest Quality ingredients available. These are not cheaply tintured or diluted to the point that they have lost all value.

Every year more dealers and trappers are telling us how happy they are with our ingredients, our quality, stability, and strength, which are much better than what they have been dealing with.

A word of caution when dealing with our ingredients. Start with less than you believe you will need because our materials are of MUCH higher quality and strength.

Acorn Oil – A wonderful ingredient for coon. Also very good in grey fox meat baits.	1 oz. \$6.50; 4 oz. \$18.00;
Ambergris Oil – An excellent food lure ingredient for canines. Also highly attractive to mink and coon. Can be used straight or mixed with other oils or bases as a side attractant. Also used to stabilize another odor. A great carrier. Will add appeal to any lure. A wonderful product.	1 oz. \$5.00; 4 oz. \$17.00; Pints \$55.00
Amberette Musk (Crystals) – To be used in the same way muskrat castors are for canines, cats and mink. Excellent ingredient where musk is called for. Great stuff.	1 oz. \$7.50; 4 oz. \$25.00
Amber Oil Rectified – A great ingredient in castor based Beaver lures as well as for Canines in a curiosity setting. Used straight or blended with your own formula.	1 oz. \$6.50; 4 oz. \$19.00
Anise Oil (Genuine) – NOT the cheaper imitation, but the Pure Undiluted China star blend. There is a difference! The true oil is much superior. USP Grade.	1 oz. \$7.00; 4 oz. \$22.00; Pints \$52.00
Apple Essence – The real deal in muskrat food lures, good in beaver food lure and upland coon. A sweet, powerful attractor.	1 oz. \$4.50; 4 oz. \$14.00; Pints \$39.00
Asafoetida – A passion ingredient. Great in gland base or matrix lures for canines and bobcat. Also attractive to beaver and muskrat. One of the better fox and coyote attractors there is.	1 oz. \$7.00; 4 oz. \$24.00
Asafoetida Gum Resin – A very powerful tincture made from old fashioned gum asafoetida that is almost impossible to find on today's market. Considered by any as one of the finest ingredients for wolf, coyote, fox and cats. Some spike a pint of urine with 1/8 oz. of this. 100% true color – original.	1 oz. \$8.00; 4 oz. \$24.00
 Banana Oil (tropical blend) – Banana Oil in its pure form used for coon, woodchuck, and early fall for grey fox.	1 oz. \$4.50; 4 oz. \$12.00; Pints \$29.00
Beaver Castor Paste – Fresh Beaver castor is very attractive to beaver especially in late winter and spring. Great for canines, cats, and coon as a food lure ingredient.	4 oz. \$40.00
Beaver Castor (Dried and ground to a powder) – Great in territorial type lures for canines and cats. Creates a urination response in canines and rub response in cats. A small amount of castor will give a nice lift to any lure or bait. It is also a top notch fixative.	1 oz. \$15.00
Beaver Castorium (Liquid) – The component in beaver castor that creates the extreme territorial response in beaver is a strong tincture of beaver castor. This is the very best castorium on the market. Smooth.	4 oz. \$18.00
Beaver Oil Sack – A vital ingredient castor base beaver lures. Highly attractive to canines and coon as a food ingredient.	4 oz. \$15.00
Bergamont Oil – Attractive to beaver and muskrat as a food lure ingredient.	1 oz. \$4.50; 4 oz. \$14.00
Birch Oil – A top notch Beaver food lure ingredient. Smooth.	1 oz. \$5.00; 4 oz. \$16.00; Pints \$47.00
Blue Cheese Essence – Strong odor of blue cheese essence. A heavy penetrating odor and very good food lure additive for canines and coon.	1 oz. \$6.00; 4 oz. \$18.00
 Bobcat Meat – Preserved. Heavy and thick. Tainted odor. You may want to add one or more different musks or oils; mink gland, honey, skunk, tonquin, or beaver castor for example.	1/2 Gal. \$20.00

Tainted Bobcat Meat – High staggering sweet odor reaches out. For Coon, Squirrels, and early fall Greys, Reds, and Skunks.

Bone Meal– This bone meal with meat added. A powder form that is very good in baits and also to thicken baits. Bone meal is very attractive to canines too. **1/2 Gal. \$25.00**
Pints \$9.00

Buckwheat Honey – Strong long lasting sweet odor. Coon trappers use this alone or mixed with fish meal, or quite a number of different combinations. This is an extremely valuable ingredient to the more experienced lure maker as this natural product attracts most every fur bearer. A warm weather canine lure and all season coon lure. **Pints \$15.00**

Butter Pecan Oil – High staggering sweet odor reaches out. For coon, squirrels, and early fall greys, reds, and skunks. **1 oz. \$4.50; 4 oz. \$11.00; Pints \$33.00**

Canton Musk – One of many musk odors available but particularly good in cold weather food lures for canines and cats. **1 oz. \$9.00; 4 oz. \$27.00**

Carmel Essence Oil – Nice, smooth, clear smell of fresh carmel. Can be used straight or mixed with other sweet-odor ingredients. Used for muskrat, coon, and many other animals. Coon and grey fox really like it. **1 oz. \$7.00; 4 oz. \$25.00**

Carrot Seed Oil – One of the super food lure for muskrat and beaver. Above attraction for both. **1/2 oz. \$16.00; 1 oz. \$29.00**

Catfish Tar – Made from the yellow fatty backs that consists of "rich" oil fat. Heavy, thick, and strong fish oil. Reaches out a long way and stays where you put it. This is NOT fish juice, with rotten meat or bone material. 100% heavy thick catfish oil. We have many nice comments on this product. We sell out of this every year, call before ordering. **4 oz. \$25.00**

Catnip Oil (Artificial) – A very good food type ingredient for coon, beaver, and muskrat. A great rub response for cats, especially where it does not grow. **1 oz. \$4.50; 4 oz. \$14.00**

Catnip Oil 100% Pure – The same use as above but gives much more intense response. **1/2 oz. \$27.00; 1 oz. \$48.00**

Cherry Oil – One of the very finest additives to muskrat food lure there is. **1 oz. \$4.00; 4 oz. \$12.00; Pints \$48.00**

Civet Musk (Imitation) – A very selective odor that creates an aggressive response in canine and cat lure. Also attractive to mink and otter. **1 oz. \$6.00; 4 oz. \$18.00**

Genuine Civet Musk Paste – Tinctured from Ethiopian Civet paste. An indispensable product. Highly valued in lure and bait making usage. This is authentic civet musk. Has a very nice musky lift to it. **1 oz. \$24.00**

Crawdad Oil, 100% – A very good food base ingredient for mink and water set coon. It is a very strong fishy family odor. Great for otter sets too. **4 oz. \$6.00; Pint \$18.00**

Crayfish Essence (Artificial) – Similar to crawdad oil in use but the scent does not have the same taste. Loud, strong crayfish odor. A great mink bait when blended with fresh minnows **1 oz. \$6.50; 4 oz. \$18.00**

Diethyl Phthalate – This is the best solvent for the tincturing for all the White Musk, Keytone Musk, Ambrette Musk, and most synthetic musk. It also works better and faster on ingredients and glands you would normally use propylene glycol for. **Pint \$9.00; 1/2 Gal. \$29.00**

Fenugreek – A very good curiosity additive for coon and gray fox. A lingering nutty odor. **1 oz. \$9.00; 4 oz. \$32.00**

Fig Oil – Aromatic odor, heavy, tangy and authentic. Great for coon, coyote, grey fox. **1 oz. \$4.50; 4 oz. \$11.00**

Fish Meal – Strong dried fish odor. Very good for canines and cats. Excellent for coon when it is mixed with buckwheat honey or crawdad oil. **Canine will eat this just the way it is. Pint \$7.00**

Fish Oil – An excellent base product for coon, mink, otter, canines, and cat food lure. Premium amber colored. Long Lasting. **Pints \$8.00; 1/2 Gallons \$25.00**

 **Gator Oil** – Extremely attractive to predators. Creates a strong aggressive desire from all canines. And is excellent for use in lure formulas. Also can be used as an added attractor in baits. Absolutely one of the best oils for canines. **1 oz. \$7.00; 4 oz. \$24.00**

Geranium Oil (Egyptian) – A number one food ingredient for non-castor beaver lure. Also good for muskrat, woodchuck, and nutria. A couple drops per quart of lure is plenty. **1/2 oz. \$17.00; 1 oz. \$26.00**

Glycerine – A colorless, odorless, lure anti-freeze that is also somewhat of a preservative. **Pints \$7.00; 1/2 Gallon \$20.00; Gallons \$33.00**

Grape Essence Oil – A super top ingredient for upland coon lures and early season canines. **1 oz. \$5.00; 4 oz. \$18.00**

Herring Oil – Premium, fresh pressed – real fishy smell and long lasting. Can be used all by itself or mixed in a formula. Because of its high fat content, it will gel up at 40 degrees or cooler. Keep in your vehicle warmed. Really gets a furbearer's attention. Helps put a lot of fur on the boards **Pints \$11.00**

Himalayan Musk Oil – A very good form of tonquin musk. Very attractive and consistent for canine and cat food or curiosity lures. Wonderful product. Top quality. Also called **Tibetan Musk** – the region it is produced in. **1 oz. \$21.00; 4 oz. \$81.00**

Horse Fat – Extremely effective when 25% is added to meat base. All canine, lion, bobcat, wolf, coyote, fox, and coon are very attracted to this. It improves anything you put it with. **Pint \$25.00**

Honey Essence Oil – The odor of real honey without the mess. Very good in upland coon lures and early season canines. Great for beaver when mixed with castor. **4 oz. \$10.00; 16 oz. \$25.00**

Jasmine Oil – A passion ingredient that is very useful when added to gland or matrix lures for canines and cats. **1 oz. \$8.00; 4 oz. \$22.00**

Juniper Oil – Coyote and other canines enjoy eating ripe juniper berries. The odor triggers a hunger response. One of the better, newer ingredients on the market. **1/2 oz. \$16.00; Pint \$29.00**

Lanolin (Anhydrous) – The rich odor of sheep. A very good food lure base product up to 50% in formulation. **Pints \$16.00**

Lavender Oil – An outstanding ingredient in muskrat food lure and castor base lures for beaver. **1 oz. \$7.00; 4 oz. \$25.00**

 **Fresh Liver** – Put up and handled properly. An excellent base in lures and baits. Preserved fresh liver. Nice attractive odor. **Pints \$10.00**

Tainted Liver – Great drawing power. Very good to add a little with other baits. It really shines with an ounce of gator oil to a quart of aged liver. **Pints \$12.00**

Loganberry Essence Oil – A very effective attraction in early season canine food lures and upland coon. **1 oz. \$6.50; 4 oz. \$22.00**

Loveage Root – Fine ground powder. A highly effective ingredient in gland base or matrix lures for canines and cat. Works good all year round. **1 oz. \$6.00; 4 oz. \$19.00**

Loveage Oil Tincture – Tinctured from the Loveage root, this is also a highly effective ingredient for mixing in lures. **1 oz. \$6.00; 4 oz. \$19.00**

Methyl Paraben – Many bait makers like this product as it leaves no taste or odor. Used to keep glands or meat based bait a natural smelling odor. Does a great job. **Pints \$20.00**

Mineral Oil – 100 % USP Grade. This is used as a base and blending agent. It's pure and odorless. **Pints \$14.00**

Molasses (Food Grade) – A strong, hard, sweet type odor. It's very much liked by the coon family. Many trappers use this just as it comes. Or it can be mixed with one or more of the many different fragrances or sweet odors available.	Pints \$12.00
 Mouse Oil – This oil has a very strong mousey smell in an easy-to-use oil base. This is a favorite of many trappers. Excellent for fox coon, coyote, and weasel. A top seller.	1 oz. \$7.00; 4 oz. \$19.00
Muscaro Musk – This ingredient was formulated by myself with entirely all Natural musk materials. It is attractive to canines and also raises the final curiosity edge in cat, and coon lures. This is very high quality material. It is a big seller used by many pros.	1 oz. \$7.00; 4 oz. \$24.00
Musk Keaton – The ingredient that smoothes the rough edges on aged food or curiosity lures. It is mainly for canines.	1 oz. \$8.00
Muskrat Musk (Imitation) – A very good food additive in lures for canines, coon and mink. Adds territorial effect for muskrat. Valuable when blended with other ingredients.	1 oz. \$6.00; 4 oz. \$20.00
Musky Musk – Very alluring man-made musk. Used in lures calling for musk or in place of tonquin as a change up in canine and beaver lures. This is a very excellent ingredient.	1 oz. \$6.00; 4 oz. \$20.00
Oak Moss Resinoid – A thick, heavy fixative product. A top attraction for grey fox. It's subtle odor is also a very good ingredient in fox, coyote, and badger lures.	1 oz. \$19.00
Pennyroyal Oil – An attractive food ingredient that arouses curiosity as well as the only place they will encounter it is at your set. Good for beaver, muskrat, and coon.	1 oz. \$8.00; 4 oz. \$19.00
Peppermint Oil – A very snappy mint odor which is both food and curiosity to beaver and muskrat; recreational to bobcats. One of the best coon and rat attractors.	1 oz. \$7.00; 4 oz. \$25.00
Persimmon Oil – A very good fruit odor food ingredient for early canines and upland coon. Very sweet and long lasting. Catches a good number of coyote.	1 oz. \$5.00; 4 oz. \$16.00; Pints \$50.00
Petro – Thick, odorless, weatherproof paste that mixes well with most oils and lures. Great for making your own weatherproof lure. Very easy to mix. Usse about 40% with baits and lures. Top seller.	Pints \$10.00
Phenyl Acetic Acid – Very good for coon and beaver. Honey-like odor. Makes a good bear bait.	1 oz. \$8.00; 4 oz. \$19.00
Polysorbate – Used to keep meat-based baits fresh and it does a great job retaining natural meat odors.	4 oz. \$16.00
Poplar Bud Oil – One of the finest food ingredients for beaver lure. Ranks with geranium oil. Distilled from one of the beaver's favorite foods. Strong and lasting.	1 oz. \$7.50; 4 oz. \$20.00
Propylene Glycol (USP) – An antifreeze somewhat preservative similar to glycerine, but has some odor. Mix 1 part glycol to 3 parts water and spray on dirt sets.	Pints \$7.00; ½ Gallon \$19.00; Gallons \$29.00
Raspberry Essence (Imitation) – A great food ingredient for muskrat, upland coon, and early canines. Sweet, loud, and long lasting.	1 oz. \$5.50; 4 oz. \$16.00
Rhodium Oil – An intense curiosity additive for canines, mink, otter, and beaver. Very appealing to canines. A couple drops to a quart of lure is plenty.	1 oz. \$7.50; 4 oz. \$21.00
Rose Bud Oil – Often used as a stabilizer in tincturing other products. It has its own attraction as well.	1 oz. \$6.00; 4 oz. \$20.00
Rosewood Oil – A curiosity combination food ingredient for beaver either in castor base or food lures. Curiosity for early canines. Very good for tincturing musks and oils.	1 oz. \$16.00; 4 oz. \$32.00
Seal Oil Replacement – Our supply of seal oil dried up during the great controversy of harvesting seals for fur value. Until that time many formulas called for the valued seal oil. Truly this seal oil replacement is as good if not much better than what used to be available. This is ONE VERY GOOD lure ingredient. Many customers are telling us how much they like this.	4 oz. \$14.00; Pints 40.00
Shell Fish Oil – Best quality, uncut. Full strength. Mix with fish oil or use alone. It creates a strong fishy odor. It is widely used in coon lure. Pure and uncut.	4 oz. \$9.00; Pints \$23.00
Shrimp Essence Oil – Has come to the top of the list for use in creating a fishy odor for coon and mink. Great for fox, coyote, and bobcat. Wonderful ingredient.	1 oz. \$5.00; 4 oz. \$14.00; Pints \$42.00
 Siberian Deer Musk Type II – Has all the food and curiosity attraction of Tonquin but louder. Excellent for use in distance call lures. Hard to beat this material. It works very well with anything you mix it with. 1-3 drops per 1/2 gallon is all you need. High demand. Full strength.	1 oz. \$18.00; 4 oz. \$59.00
Skunk Essence – A very natural ingredient. Works as a curiosity early and food late for canines and cats. Full strength. Very good in a distance call lure. "PURE QUILL". The most powerful odor known; it is used to enhance other odors.	1 oz. \$20.00
 Skunk Essence (Tinctured) – Used by many deer hunters and predator callers. We sell a lot of this tincture.	1 oz. \$10.00
Skunk Tallow – Nice sun-rendered oil used in lure formulation. Base that is called for in many old lures.	4 oz. \$10.00; Pints \$25.00
Sweet Skunk – Very heavy and curious odor. Not the sharp penetrating odor of the fresh, pure essence. Has a wide range of uses in compounding baits and lures and is very good by itself. Will improve most any lure formula. No one makes anything close to this. Quality sweet skunk. Great for all predators. Many other bait makers like this product.	4 oz. \$20.00
Smoke Essence – A relatively new curiosity additive for coon and canines. Creates a terrific response. Use sparingly.	1 oz. \$5.00; 4 oz. \$10.00; Pints \$20.00
Sodium Benzoate – A very good preservative used often in food. Safe for humans. Make bait using 2 oz. per gallon. Be careful what you buy. Cheaper grades are used as sweeping compound.	Pints \$7.50; ½ Gallon \$24.00
Spearmint Oil – Sweet, high grade, original material. Widely used in beaver and bobcat lures. Darn good stuff.	1 oz. \$6.50; 4 oz. \$18.00; 16 oz. \$48.00
"Super" Salmon Oil – One of the top end rendered fresh fish oil. Next to paddle fish oil in quality. Attractive to canines, coon, mink, cat, and otter. Penetrating odor lasts a long time.	Pints \$10.00; ½ Gallon \$28.00
Sweet Corn Oil – A very excellent food attraction ingredient for muskrat, upland coon, and early canines, as well as beaver. Can be used by itself or blended in lure compounds for deer, bear, and coon.	1 oz. \$5.00; 4 oz. \$16.00; Pints \$42.00
Sweet Flag Oil – One of the outstanding food attractions in a muskrat lure. Powerful and alluring.	1 oz. \$16.00; 4 oz. \$62.00
Sweet Musk – A mix of high-end musks. Very attractive to most animals. A very special blend.	1 oz. \$6.00; 4 oz. \$18.00
Tallow Oil – Beef tallow. A very good base or part of a base ingredient for canine, cat, or coon food type lures, especially if skunk essence is used. Early government trappers used it for bait balls – "Tallow Balls". Use to coat your favorite meat baits.	Pints \$11.00
Lure Thickener – Use one ounce to quart of lure. No odor at all and blends well with other ingredients.	Pints \$16.95
Tonka Bean Extract – This will give your lure a faint subtle odor which is very appealing to all canines. Mix well with your lure base. Then spike it with ashot of pure skunk. Long lasting; very effective. Use 1/2 teaspoon per set.	1 oz. \$20.00
Tonquin Musk – Made from 100% MUSK PODS. Has a Heavy "CONCENTRATED" musk odor. This ingredient serves both food and curiosity responses in lures for canines and cats. Very good. My personal favorite. A top seller.	1 oz. \$20.00; 4 oz. \$68.00

Valerian Extract Oil Fluid – Causes an extreme urination and rub response in canine and cats. Very good in gland and territorial type lures.1 oz. \$9.00; 4 oz. \$34.00

Valerian Root – Excellent product with the same response as above but it takes a smaller quantity to do the same job.1 oz. \$8.00

Weasel Musk (Artificial) – A fine aggressive curiosity additive to canine, mink, and otter lures.1 oz. \$15.00

Xyl or White Musk Crystals – A musk that is very useful in toning down over tainted base products in canine lures. Leaves a faint musky smell.1 oz. \$19.00; 4 oz. \$76.00

Nice.1 oz. \$19.00; 4 oz. \$76.00

Ylang Ylang Oil – A strong floral scent. Attracts canine, coon, beaver, cats, and muskrats. Really good in springbeaverlures.1 oz. \$10.00

Zinc Valerate Powder – A very good preservative for fresh products that also gives a mild odor of Valerian. Good in coyote lures.1 oz. \$20.00; 4 oz. \$76.00

Remember, a little goes a long way!! Remember, a little goes a long way!!

Bait Mix Solution – You may use whatever type meat base you like. When the bait gets to the stage you desire, you can add my Bait Mix Solution and it will stop the aging process and will actually give your bait an odor that predators will really work the set for. Use one pint per 3/4 gallon of bait.Only \$20.00 Per Pint

Videos (All Videos are DVD's)

WAYNE J. DERRICK

G-Man Coyote Trapping - You will see lots of coyotes caught in this video. Wayne's down to earth style won't leave you with unanswered questions. He shows you a large variety of well camouflaged and blended flat sets that really take coyotes. 120 minutes **\$39.95**

Rocky Mountain Grey Fox Trapping - Join Wayne on his New Mexico Grey Fox line. Includes location, sets, lures, and many grey fox catches. Wayne has trapped greys for over 35 years, both as a fur trapper and government trapper. 105 minutes **\$39.95**

Rocky Mountain Bobcat Video - Without any doubt this is one of the best cat trapping videos on the market. Wayne has spent 16 years with the government working problem animals and now works private contracts year around trapping lion and coyote on numerous New Mexico ranches. All material in this video is original, on the line footage with nothing staged, as you will be able to tell. Wayne does a terrific job showing cat locations as well as pin pointing proper trap placement. There are many different catches shown in this video (some real big honkers are caught). He doesn't just use one or two types of sets, but shows you how to make a variety of sets and variations. You can learn in 1 hour. 45 min. what it takes most people a lifetime to figure out. A Great Video. 1 hour 45 minutes **TERRIFIC INFORMATION! \$39.95**

Rocks Brush & Sandy Washes

Derrick's Second Bobcat Video - If you liked Wayne's last cat video, "Rocky Mountain Bobcat", you will really enjoy this one also. Learn how to locate cats in places you never thought. Locating Bobcats in rocks, heavy brush, and washes. Wayne shows you how to take cats that refuse dirt holes. See why these sets are very attractive to the largest Tom Bobcats. Learn locations, sets, and see Wayne's life style of making a living off trapping year around as he does. You will see lots of Big Toms caught in these sets. 2 hours. 3 minutes **\$39.95**

GARY JEPSON

Trapping the Elusive Coyote - Coyote family structure explained and the how, when, and where of successful Coyote trapping. Proper locations, detailed set construction, and the right attractors. When certain lures are effective and when they aren't and why. **GREAT KNOWLEDGE!** 120 minutes **\$39.95**

Trapping the Elusive Bobcat - Enjoy 2 hours of intense Bobcat trapping with Professional Trapper Gary Jepson. You'll see Gary describe and then put into action the concepts of location, construction and attraction in trapping bobcats. Gary also explains in meticulous detail the construction of proven sets along with the terrain and areas in which they are to be located. Gary shares over 55 years of trapping knowledge in this DVD. 120 minutes **\$39.95**

Snaring the Elusive Coyote And Bobcat - Just out "Snaring the Elusive Coyote and Bobcat" explains the correct use of baits and lures, location for setting Cat and Coyote combinations, correct snare positioning, and use of snare supports. It's loaded with lots of snare know how. **\$39.95**

BRIAN FISCHER

Deep Snow Coyote Snaring - This DVD goes through all aspects of snaring and explains techniques used in the field to bring your fur numbers up at the end of the trapping season. Topics include: locations, snare parts, snare making, hints and tips. 120 minutes **GREAT VIDEO \$39.95**

RON HAUSER

The Pocket Set - Mink & Coon Trapping - You will learn first hand from this adaptable trapper as he efficiently traps mink and raccoon using various Pocket Sets. Learn Hauser's trap placements for higher catch averages, guide sticking techniques and other trapline tricks, not in print, on film or use by many trappers, yet! 180 minutes **\$29.95**

Muskrat Frenzy - Hauser puts the pedal to the metal as he cold rolls through South Dakota, trapping over 5,000 muskrats in 3 1/2 weeks. Hauser gives you the recipe for success as he streamlines methods that work. Hauser shows you how to git-er-done in a land crawling with muskrats. **\$29.95**

Full Time Beaver Trapping - Ron Hauser has trapped beavers from the Canadian border to the cypress swamps of Mississippi. Hauser brings 40+ years of trapping experience to you in this instructional video. Camera man captures on film, a beaver working a set and getting caught in a 330! 270 minutes **\$29.95**

Longlining, Raccoons, & Conibears - Ride with a master trapper and learn the fastest and deadliest method of body trapping raccoons. Features a days catch of 73 raccoon caught on location. Will help you join the ranks of the "elite coon trappers." 180 minutes **\$29.95**

Raccoons, Coil Springs 'N' Blind Sets — Hauser's first trapped raccoon was caught in a blind set 40 years ago. Since then, he has adapted his trapping skills from observing raccoons and other trappers and spending many seasons on the line in nine states. Raccoons are predictable. Blind Sets are simple, and they catch raccoons in numbers, fast, catching the 'coons other trappers pass by. The concept is not new, but it's used by very few trappers. If you're a trapper, pick up this DVD and add blind sets to your bag of tricks. **\$29.95**

TRACY TRUMAN

Modern Grey Fox - Grey Fox are different than Coyotes or even Red Fox. They require a different approach. Western trapper Tracy Truman has written a book on Grey Fox trapping and now has this DVD to show footage of his ideas and efforts as well. With over 30 years of trapping experience Tracy will show you how to dramatically improve your catch regardless of your experience or location. Learn the secrets of making large catches and proper set construction that eliminates misses. 120 minutes **\$29.95**

Cage Trapping Bobcats and Grey Fox - California, cage trapper Jeff Yancy and grey fox man Tracy Truman combine in this 90 minute DVD to show you how, when, and where to use cage traps to catch bobcats and grey fox. Learn how to properly locate, bed, conceal and theft-proof your cages. This DVD is a true teaching tool and sure to increase your catch. 90 minutes **\$22.95**

KYLE KAATZ

Skunks: The Best Investment You'll Ever Make - Take Mother Nature's striped gift all the way to the bank! Methods of skinning, fleshing, stretching skunks, gland removal, essence extraction and storage. Grading, and odor removal are all covered. Additional information on packaging and shipping skunk essence. 43 minutes **\$14.95**

MATT JONES

Coyote Trapping East of the Big River - Follow pro trapper Matt Jones through the forest, fields and river bottoms of Illinois, Kentucky, and Tennessee. Eastern trappers trap in the worst weather conditions. The methods here will show you how to keep your sets working. 90 minutes **\$34.95**

"Coyote Chaos" - Clint Locklear and Matt Jones fight through 7 inches of rain, deep mud, competition and freeze-thaw conditions on their coyote line. Coyote trapping in harsh conditions. 120 minutes **VERY GOOD \$39.00**

After The Catch - (Pro fur handling for the fur trapper & hunter) The ultimate fur handling video! This huge 4 hour video teaches you everything you need to know in order to handle coyote, bobcat, red fox, grey fox, raccoon, skunk, river otter, mink, muskrat, & beaver. A fun yet extremely educational video that everyone will enjoy and benefit from. Shows the small things that make the big difference. 240 min. **\$39.95**

A BEST SELLER! one of the best ever!

Eastern Raccoon Trapping - Follow Jones & Len Williams through the bluff and river country of Kentucky, Illinois, & Tennessee as they show techniques that have helped them harvest 1000's of raccoons over the years. Learn to deal with obstacle's such as fluctuating water levels, rough terrain, weather changes, and competition. 110 minutes **\$34.95**

Hardcore Cat & Coyote Trapping - Follow trappers Matt Jones & Len Williams to reveal the "Secrets of the Eastern longline". Learn the methods these trappers use to take truckloads of bobcats, coyotes, red fox, & grey fox. This video focuses on harvesting the maximum amount. Lots of good information & some great cat sets. 120 minutes **\$34.95**

MIKE MCMILLAN

More Money From Trapping - Fur handling tips that add value to your fur. Animal Gland removal, skull collecting, bait and lure making. Animals covered: beaver, bobcat, red & grey fox, muskrat, otter, coon, skunk, opossum, and squirrels. Save money and time in the fur shed. When Mike does something it is done thoroughly and complete. 5 Hours, 2 disc set **\$39.95**

BRYAN FLOWERS

The Art of DP Coon Trapping - International trapper and hunter Bryan Flowers takes you on his northern Pennsylvania trapline in search of ringtails with the use of DP traps. 90 minutes **\$39.95**

The Art of Trapping Foxes - Covers all aspects of fox trapping, with techniques that also cover coyotes. Locations, multiple sets covered, freeze and weather proofing, baits and lures, proper trap and anchoring. 90 minutes **\$29.95**

Videos (All Videos are DVD's)

MIKE MCMURRAY

NEW Western Cat Trapping - This new DVD is a product of 52 years of predator trapping. So this production is by no means a production by somebody that is new to this business. Back in the early to mid 80's I owned and operated my own lure business, I authored many trapping articles in Fur Fish and Game, The Trapper and WCT magazines. I also owned and operated a successful ADC program and 23 years of Government ADC work. So come along and ride with me. I'll show you top locations, proper luring and scenting methods for the cats and super efficient sets that will help you take the highest percentage of the cats in your area.

LOTS OF GOOD CAT SETS

\$45.00

A Blast from the Past

NEW Western Cat Trapping - Back in the early 1990's I did a video on trapping coyotes (Trapping the Canines - The Way It Is). Of course this was made for VCR's. I have had the video done on DVD's and it is ready for release. This DVD covers equipment and a lot of location info that is bound to help anybody better understand the canines and has a variety of sets. Now there is a couple of small glitches from the old film but it didn't bother anything. This is a very informative DVD.

\$35.00

BERNIE BARRINGER

New Snaring in the Snow - This video covers in depth strategies on red and grey fox, bobcats, and coyotes. They go into details on types of snares, building snares, set locations, finding good habitat, setting techniques avoiding refusals, troubleshooting, bait stations, even using Google Earth to find good trapping locations. In this video they show catches of nearly two dozen bobcats, fox and coyotes and explain each set. They go into detail on snaring theory and proper setting techniques. Don't let deep snow send you home, you can learn to use it to your advantage and catch more furbearers when other trappers have hung their steel for the year; this video will show you how. Approx. 100 min. Really Good One. Lots of Know-How.

\$39.95

ED SCHNEIDER

Coyote Trapping — Fall & Winter Trapper Methods - Proven methods that work. Step-down dirt hole set, T-bone set, staked hide wool set, trail set and the duff set. For the novice and experienced trapper alike.

2 disc set

3 hours

\$34.95

VERY GOOD!

JEFF DUNLAP

Beaver and Otter Trapping - Packed with information on beaver and otter trapping. Jeff covers blind setting with footholds for beaver and otter, block down sets, otter toilets, beaver scent mound sets, setting large culverts, along with tips to make your trapping faster and more productive. Top notch beaver/otter video.

\$29.95

Fur Trapping — Tips, Tricks & Techniques - Learn valuable techniques on how to set traps for coon, beaver, and otter. Detailed instructions on where the best place to set your trap in the wild. Tips on how to lure the animal into your trap.

\$29.95

High Speed Predator Trapping - Jeff Dunlap shows you how to catch predators right along the road. Shows location after location to increase your predator catch in spots you are driving right by. Bait and lures, dirt hole sets, flat sets, cubby sets, baiting predators in and more.

\$29.95

ROYCE TEAGUE

Under the Ice Beaver Snaring Simplified - Shows you Royce's simple techniques that have allowed him to take 100's of beaver in northern Minnesota. Royce is an expert snareman with endless energy. You will see his northern trapline, techniques and catches. 2 hours, 20 minutes.

WELL DONE

WORTH THE MONEY

\$34.95

JOHNNY THORPE

Gland Extraction & Lure Formulation - Shows you all you need to know about extracting glands for resale or for personal use. Johnny shows extractions of otter, mink, 'rat, beaver, fox, 'yote and bobcat. You will also get valuable information on tincturing, formulating lures and a detailed synopsis of skunk essence and its value. You will not be disappointed. 1 hour

\$39.95

Lure and Bait Making - Come along with Johnny Thorpe as he takes the viewer on an in-depth discussion of the formulation of animal scents. Johnny has built and sold three different lure-making businesses in his 50 years as a lure maker. You will see the many aspects of lure and bait making, all the way from ingredients to formulas used. You will also be given many different lure and scent recipes used on today's market from deer to almost all furbearers. This video is a must see for everyone who wants to learn.

GOOD STUFF

\$39.95

NEWT STERLING

Master Raccoon Snaring - Veteran Professional trapper Newt Sterling shows you methods of raccoon snaring that will work in all parts of the country, in all kinds of weather. Everything you need to know about snaring raccoon.

\$34.95

Beaver Snaring - See Open Water Techniques. Newt shows his unique snaring methods and equipment. Learn how to avoid out of season otter and still take beaver. Learn sets usually not associated with snares. This video is loaded with catch scenes of many beaver in snares.

\$34.95

DUSTY HOUGH

Ultimate Beaver Trapping - Dusty Hough shows you how a professional racks up big numbers in open water. On a working beaver line, Dusty reveals it all as he takes 25 beaver in a 7 hour check. Dusty also takes you to the fur shed to show he harvests the valuable castor and oil glands. 2 hours & 41 mins.

\$39.95

STEVE WOOD

bobCATching — Vol. 1 - Nevada bobcat trapper Steve Wood covers trapping, snaring, and fur handling. A very intense instruction courses detailing locations, trap and snare sets, extensive pelt preparation and much, much more! 2 hours

\$40.00

bobCATching — Vol. 2 - More trap sets. More locations. More snaring. More cats. White traps. Coloring traps to target the cat's foot. An improved coiled spring trap cover for snowy and windy areas. Snaring cats with tiny 1/32 cable. Nearly 2 hours

Nice buck taken January 1, 2012. Darn good way to start out the new year. Adam H., ND.

HAGz®

"The Most VERSATILE Trapping Device On The Market"

BRACKET — Multi-use: Trap Stabilizer, Stake Swivel and Slide Lock

Spring Clip

An extremely small, always attached body grip trap stabilizer.

- Use with HAGz® Bracket for extreme versatility
- Used to stabilize the body grip traps on 3/8" rods
- Patent Pending
- Made in the USA

HAGz® Spring Clip is inserted through the spring coils where it remains always attached, never forget it, and doesn't interfere with spring eye. Uses gravity to mount in position on 3/8" rods as an adjustable height stabilizer. Use with the HAGz® Bracket to stabilize a Body Grip on rocks, logs, etc.

\$15.95 dozen

Spring Clip XL

- Designed to fit 220-330 sized Body Grip Traps
- Designed to work by itself on 1/2" rods or in conjunction with HAGz® Bracket for extreme versatility.

\$18.95 dozen

Pre-Bent Rivets (J-Hooks)

\$2.50 / Doz.

\$17.25 / 100.

Grawe's Trail Snares

When early winter sets in Furs are at their Peak in primeness. Unlike traps, snares work 24 hours a day, 365 days a year. I call them Silent Sentries as they will work in rain, cold, or snowy conditions. I designed, invented, and patented our Fig. 7 Support Snare in July of 1982 and have used and worked with snares for over 38 years.

Our Bullet Lock is small in size which makes for Less Visibility and Wind Resistance. It is made with smooth round edges out of Heat Treated "Hard Steel". It is a "Non-Forgiving" Lock that won't back up or saw through and can be reused. All our snares are made with High Quality Performance Cable and come with standard adjustable tie-off ends which can be quickly attached to Stakes, Fences, or Brush. We offer many options such as deer stops, support collars, and heavy 9 gauge wire swivels. We list many styles and types of snares to meet individual needs.

Grawes "Quick Kill" Snares

All "Quick Kill" Snares are made with "High Performance Cable" and come with 50 lb. "Quick Kill" Snare Springs, 270 lb. release ferrells on the lock ends, support collars for your support wires, and adjustable tie-off ends.

7 Ft. 1/16 1x19 – Made with small 1/16 Bullet Lock, they are less visible and "High Performance" snares. They're specifically designed low profile snares with Support Collar and "Kill Springs". They are being used in areas where very little vegetation exists. When a Coyote hits the end of these snares with the Tuff Little 1/16 Bullet Locks, he is just all done sucking air. Also less visible and quick enough for Fox and Cats. **\$21.00 Doz., 3 Doz. \$60.00**

10 Ft. 1/16 1x19 Also with small 1/16 Locks so they're Less Visible and "High Performance" specifically designed low profile snares with "Wammy" Support Collars and "Kill Springs." These are great to use on Coyote in areas where very little vegetation exists. The longer length helps make them More Non-Chewable. They're quick enough, smaller, and less visible for Fox and Cats too. **\$24.00 Doz., 3 Doz. \$69.00**

7 Ft. 5/64 1x19 – Galvanized "High Performance Cable", with support collars and extremely aggressive, non-forgiving 5/64 hardened steel "Mini Mag" Bullet locks with 50 lb. "Kill" springs that will not allow the lock to back up. They just keep moving forward, getting tighter with each movement. Our biggest seller. **\$25.00 Doz., 3 Doz. \$69.00**

7 Ft. 5/64 1x19 – Same great snare as above but *without "Kill Springs"* **\$19.50 Doz., 3 Doz. \$57.00**

10 Ft. 5/64 1x19 – Same materials and components as the 7 ft. snares. Many snaremen prefer "Kill Springs" on these longer length snares as these give many more options for anchoring and the longer length helps make them more non-chewable. You may reuse the same trail without tearing it up. Tests with this snare resulted in 99% kill ratio on coyote. Our best seller in western states. **\$30.00 Doz., 3 Doz. \$88.00**

7 Ft. 5/64 7x7 – Galvanized cable comes with 50 lb. "Kill Springs", our 5/64 "Mini Mag" Bullet locks, support collars, release ferrells, and adjustable tie-off ends. Many like this slightly faster cable with smaller locks as it works well on Fox, Bobcat, and coyote in heavy brush. **\$24.50 Doz., 3 Doz. \$72.00**

7 Ft. 5/64 7x7 – Same great snare as above but *without "Kill Springs"* **\$22.00 Doz., 3 Doz. \$64.00**

8 Ft. 3/32 7x7 – Comes with our "Kill Springs" and the original 3/32 Bullet locks. These 3/32 hardened steel lock won't back up and can't be sawed through. We have sold thousands of these snares since 1978 and many snaremen won't use anything else. Support collars, adjustable tie-off ends, 270 lb. release ferrells. **\$29.00 Doz., 3 Doz. \$86.00**

LOADED 5 Ft. 1/16 1x19 BOBCAT, FOX SNARES – We put these on the market last season and the response was more than we had ever dreamed of. These are hand-loaded snares which makes them extremely fast and we use the bullet lock for less visibility and great lockup. Comes with support collars and adjustable tie-off ends. **\$21.00 Doz., 3 Doz. \$62.00**

3/32 7x7 GALVANIZED TRAIL SNARES – Over the years these three sizes of 3/32 7x7 Snares have become the standard for many snaremen. Made up with our Unique "Bullet Locks", Support Collars and Adjustable tie off end. Their Reasonable Prices makes them Top Sellers. Great for Coon, Fox, Coyote, and Beaver. *Without Kill Springs*

4 Ft. 3/32 7x7 (in fences) **\$17.00 Doz., 3 Doz. \$48.00**
5 Ft. 3/32 7x7 (beaver) **\$19.00 Doz., 3 Doz. \$54.00**
6 Ft. 3/32 7x7 (some coyote) **\$21.50 Doz., 3 Doz. \$61.00**

GRAWE'S SNARE PASTE

Big number snare men know that a good drawing scent will cause predators to seek out the source following the trails available to get to it. This strategy not only attracts the predator, but distracts them as well, making them less likely to spook at a snare. Used up off the ground, this paste has just the right combination of ingredients to put out the attractant in all conditions, and to keep the predators focused until it's too late.

4 oz. Pro Size \$24.00

BREAK AWAY RELEASE FERRULES

Slide Wire, Drowning Cable, and/or Snare Extension Cable – 3 in 1 All Cable is 10 ft. long

These beefed up Slide Wires are made with heavy 1/8" cable and top quality parts. This is the quickest and easiest Drowning System for Beaver, Otter and Coon. You can also use this rig to hide your catch out of sight of thieves down the bottom of a road ditch, around the corner, or behind a bush. This same setup works well as Snare Extension Cable as the heavy cable doesn't kink up like others and last much longer. Comes with heavy duty drowning lock and fully adjustable loop ends and an S-hook to hook your trap chain up to the cable. all you gotta do is haul em home.

\$2.25/each

\$21.95/dozen

Mighty Hooks

Ideal for the trapper and snareman. Use for attaching chain to super stake ends, anchoring or extending a snare. 100's of uses on the trapline. Tempered 3/16" steel.

\$2.00 dozen \$7.25 for 50

“Lightning Minkers”

Our new Lightning Mink Snare are made with 3/64 7x7 Galvanized Cable, which makes for a smooth and Lightning Fast snare. These snares come with our “Mini” 1/16 Bullet Lock, a Fixed Loop, and Built in Swivel, and a double support wire which allows the unit to be used with metal or wood stakes, or existing small brush. In fact, it can be attached to most any object. You Marsh trappers merely have to wrap the support wire around a dead beaver stick and slide it under the grass along side a mink trail, open the snare loop, and you’re in business.

\$19.00 Dozen, \$54.00 for 3 Dozen

Grawe's Trail Snares for Mink

This little 30" as we call it is made with 3/64 7x7 Galvanized cable and with our New “Mini Mink Lock” that makes for an Easy, Fast, close. It is our most popular Mink snare, because of its price and weight (a mere 4 oz. per doz.). It's Exceptionally Strong and does a Great job on Mink as 90% are just laying there Dead with little or no disturbance. A terrific little snare.

Up until a few years ago, when we introduced our New “Mink Trapping and Snaring Book”, most trappers felt that snaring would be just too difficult to do. Snaring Mink is Quite Easy to do once you get the idea down pat. Many trappers have become very successful at snaring mink. Why not try a dozen “little 30's”.

Only \$14.00 Dozen, \$40.00 for 3 Dozen

James Rognlien, Adrian Dokken and Bryan Bruner's favorite winter pastime

#9 Snare Support Wires

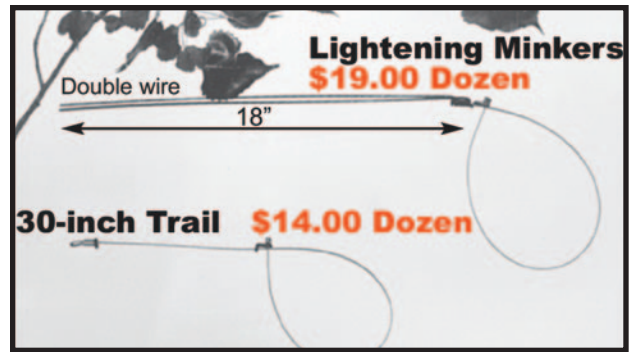

May be used with any type trail snare, with a number of different types of Support collars, the “Metal Wammys,” the “Twist On,” or the “Vinyl Tubing” type. The 29 inch total length allows them to be used in deep snow or they can be easily shortened with a side cutters to your own preferred length. Stake down the support wire and snare with the same stake and insert the wire into the collar and set up your loop to desired size and you are ready to move on to your next snare location.

Grawe's Deer Hunting Scents

BUCK WHIZ — We are the only manufacturers who produce this type of high-quality attractor to benefit deer hunters. We have developed a method to concentrate a material that stimulates intense interest from buck deer, and it attracts bucks and holds them under stands or near buck scrapes for the killing shot.

1 oz. ONLY \$12.95

CURIOSITY DEER LURE — A costly blend of three very fine ingredients. And fellows, as you will find out, it really gets a deer's attention. It will not only attract deer, but this very appealing scent is also a very fine masking scent that will cover your own human odors.

1 oz. ONLY \$12.95

DOE IN HEAT URINE — Contains Estrus cheese type secretions and is handled and preserved just right to insure lasting freshness. Comes in odor proof bottles.

4 oz. for just \$15.95

NO ODOR COVER SCENT — Cover scent is often over-looked, but should be an essential part of your hunting gear. I consider it "Extra Insurance". Why not have everything working to your advantage? Trophy bucks exist because of sight, sound, and smell. Why not work toward an edge with a good natural cover scent? Human scent definitely spooks deer. I pin a dark colored small rag, dabbed with cover scent, to the top of my shoulder, one to my waist and one to my bottom pants cuff. NO ODOR Cover Scent.

4 oz. for just \$14.95

FAKE SCRAPE or ARTIFICIAL SCRAPES — They are very effective ONLY when made and used correctly. Use only 5 to 8 drops of our carefully collected Buck Urine. We really do collect and handle our urines much differently than most collectors. As a result you will see the difference. Use cover scent, sit still and if you can hit him you'll get him. Re-scent every 4-6 days. DO NOT over do this procedure. If eight drops is good more is NOT better. Fake Scrape.

4 oz. bottle \$16.00

BUCK MUSK — This strong musky gland is taken only from adult bucks. This natural Buck Musk has a deadly effect; an attraction to draw deer to a desired location. During the pre-rut and early rut deer aren't very interested in this lure. During the full rut, I assure you that you will have bucks following this scent, and most days more than one. Use up to 2 oz. on dry material about 3-4 foot off the ground. Re-scent the next time you hunt. Cover your light colored skin, sit still, and not wearing shaving lotion. If you smoke at all you lessen your success by 80% or more. Wash up and cover up. Buck Musk.
